WORK EXPERIENCE

Junior Software Developer PPCROY TECH SOLUTIONS

10/2024 - Present

Hyderabad

Description

- Working on front-end development with React, contributing to building and optimizing user interfaces, implementing best coding practices, and collaborating with the team to enhance application performance and user experience.

Associate Software Engineer 3rd Eye Lab

04/2024 - 06/2024

Hyderabad

Completed a 2-month internship as an Associate Software Engineer, where I quickly learned React Native and independently developed a full app using React Native and Firebase. Additionally, worked with React.js to enhance front-end development skills, demonstrating adaptability and ownership in project execution.

Project Executed

- Name:** Levels App
- Technologies Used:** React Native, Firebase and Redux.
- Description:** Developed a responsive quiz app where users can sign up, log in, log out, select quiz categories and levels, and play quizzes.
- User Authentication:** Implemented secure sign-up, login, and logout functionalities.
- State Management:** Utilized Redux to manage app-wide states efficiently.
- Navigation:** Set up multi-screen navigation for a smooth user experience.
- Game Mechanics:** Added interactive features, including a timer, health bar, and real-time feedback (sounds and vibrations).
- Data Handling:** Stored and retrieved user progress and game data from Firebase dynamically.

EDUCATION

PERSONAL PROJECTS

Jobby App (<https://anujjobbyapp.ccbp.tech>)

- Technologies Used:** React JS, CSS, Local Storage and Rest API
- Description:** Developed a React.js job search application enabling user login/logout, navigation through job listings and descriptions, and job search with filters for employment type and salary range. Integrated backend data fetching, similar job suggestions, and JWT token storage in local

Food Munch (<https://anujfoodmunch.ccbp.tech>)

- Technologies Used:** Html, CSS and Bootstrap.
- Description:** Created a fully responsive website using HTML, CSS, and Bootstrap. It includes sections for the food menu, About Us, Contact Us, and Follow US, all accessible via a top navigation bar for smooth scrolling.

Donation App

- Technologies Used:** React Native, Firebase and Redux.
- Description:** Developed a React Native donation app with user registration, login, and seamless navigation across sections. Integrated Firebase for backend functionality, custom Inter font, and Redux for efficient state management, ensuring a fully responsive user experience.
